*Re: United States v. Douglass Mackey, Criminal Docket No. 21-0080 (AMD)*

Dear Judge Donnelly:

On the issue of whether the identified documents should be unsealed, Mr. Mackey agrees in full with the position stated in the government's letter dated September 10, 2023, that is, Mr. Mackey does not object to unsealing the documents with the exception of the second bulleted paragraph and accompanying footnote in the government's letter of June 28, 2023. While the parties' agreement on this issue might obviate the need to say more, the sealing of names in the second bulleted paragraph and accompanying footnote is somewhat consistent (even if not identical) to earlier sealing of names in this case; and the paragraph and footnote allege misconduct by innuendo which was not proven, did not happen at all as the allegation suggests, and in the view of the defense should not appear in the public record. If the Court wishes more briefing on the issue, we stand ready to do so.

Respectfully submitted,
